SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The students, staff, and parents of Macedonia Elementary School believe that each student should have the opportunity to achieve academic and personal success in a safe and caring environment. Our commitment to this mission is evident every day. As we prepare our students for a lifetime of learning, we promote the use of technology, an appropriate curriculum, and an environment that is conducive to learning.

Macedonia made Adequate Yearly Progress this year. We met 19 of 19 objectives required by the No Child Left Behind program to achieve success. We enjoyed several celebrations with our students, parents, and the community. An official update of accreditation was filed with the office of the Southern Association of Colleges and Schools.

Our use of technology to support instruction has been more effectively implemented. All sixth grade students received an individual laptop as the result of the E2T2 Grant. Teacher laptops were upgraded to enhance learning with the use of classroom Promethean Boards and projectors. Grade-level laptop carts were available for student use, as were the sixty networked computers in the Compass Learning Lab. Teachers and students participated in training offered by the Technology Coach funded through the E2T2 Grant. The Compass Learning program is used as a prescriptive tool, which creates individualized learning based on the results of the Measures of Academic Progress assessment. The aforementioned strategies strengthen basic skills and support a better understanding of the South Carolina Curriculum Standards.

Students met data goals for the MAP assessment. Schoolwide, classroom, and individual celebrations were scheduled throughout the year. The growth for the year has proven that when students are held accountable for their own learning, student achievement is increased.

Service learning, cooperative learning, and extracurricular activities are an important part of our curriculum. Character Education, Career Awareness, and Positive Behavior Interventions and Supports are ongoing initiatives that have proven to be effective means of enhancing our students' focus on being responsible for their own learning. Club Day was initiated this year and offered students an opportunity to select activities that promote learning from a different perspective. Parents and the community have been vital partners in this initiative.

Parent and community involvement has improved over the past three years; however, the school administration is working with the School Improvement Council and PTSO to increase parental and community involvement. A yearlong schedule of opportunities will be given out in August. In an effort to increase attendance, we have combined some activities to make it easier for parents to attend.

Our faculty and staff are dedicated to giving our best to our great students. We will continue to promote the "World's Greatest Elementary School."
